

SIXTH FORM BUILDING GRANT GO AHEAD

We were thrilled this week to hear that we had been successful in our bid for funding for a new, state of the art, Sixth Form Centre. The project is worth £800K and will convert the now redundant West Lawn Gym into top quality sixth form accommodation. This will include open plan study space incorporating a large IT zone, individual study stations, group study spaces and a resources/library area. The accommodation will also provide office space for the Director and Deputy Director of Sixth Form, a chill out zone for the students to relax in, a small kitchen area and a dining space. Upstairs, on the newly formed second floor, will be a fully soundproofed exam space. The front of the building will have an atrium as an entrance area and there will be a small garden terrace for exclusive use by the sixth form students. Building will begin on this project in September and to accommodate the students' additional study space requirements up to that point, the current sixth form common room

will be converted into a study space. In order to continue to provide an environment for the students to relax in, we are bringing forward plans to convert the Arts Centre Foyer, into a Sixth Form and Staff Coffee Shop, with internet access and some IT facilities. This is a big change for us but one that will provide our young adult students and our staff, the opportunity to relax over a coffee during their free time. It will also provide us with a professional catering outlet for use by the wider school community, during Review Days and on Production evenings.

will be converted into a study space. In order to continue to provide an environment for the students to relax in, we are bringing forward plans to convert the Arts Centre Foyer, into a Sixth Form and Staff Coffee Shop, with internet access and some IT facilities. The GOLD STANDARD CHILDREN'S BOOK AWARDS help us to enrich reading for pleasure at TCS

Carnegie Medal awarded annually for an outstanding book for children /young adults

This is now the third year that TCS, on both sites, has been involved in "Shadowing" CILIP's prestigious children's book awards. Over 25 students enjoyed the Carnegie shortlisted books, along with an increasing number of teachers and support staff. This photo shows some of our core readers and staff who met up each week between Easter and mid-June, watched videos of authors, and wrote reviews for the national website. They celebrated with a lunchtime party when Mrs Masterman the librarian announced the brilliant medal winner for 2013 (Sally Gardner's *Maggot Moon*).

"At the ceremony Gardner, who perceives her dyslexia as a gift, spoke up for children for whom reading and writing does not come easily, and the librarians and teachers that help them"

FROM THE PRINCIPAL

Dr A P Gray

As you are no doubt aware Monday July 1st saw the promotion of all students up to their new Year Group at both Mill Lane and Exeter Road. The school is still in the minority of those which do this, although the number is growing quickly as others see its considerable benefits. For instance, school attendance is always the highest of the year during this week and motivation and ethos are really powerfully positive as students meet their new teachers for the first time and for many begin new courses, which they have made positive choices to study. Our plan is to

continue to do this but there has been much in the news this week of schools being allowed to set their own termly structure throughout the year. This freedom has been available to academies for some time but few have chosen to do so. The benefits might be in terms of students' learning, when the long Summer holidays, originally designed so that children could help gather in the harvest, place a large gap in the learning experience of the child. There are no plans to change anything here at the minute, and much would need to be coordinated between all local schools to make a four or five term year practical for all concerned. However, I feel sure at some stage directors will want to find out if there are added benefits for our students and would want to consult with you on this.

More immediately the school had great news recently. Three weeks ago we were informed that an appeal against a rejected bid to the Educational Funding Agency for nearly £1million to redevelop our 6th form facilities has been successful. This means that work can begin in the Summer holidays and the Autumn term on a specialist 6th form centre. This much needed facility is described elsewhere in Wavelength and will go a long way in providing a first class post 16 experience for our students. Alongside this, a remodelling of the foyer to provide a meeting and work area for 6th form and staff, with top quality refreshment and IT facilities will further add to the provision. Further to this is the exciting possibility of offering Foundation degrees from September 2014 to our students in partnership with the University of St Mark and St John.

This edition of Wavelength is the place where my thanks and those of the whole school community, can be offered to staff that are leaving. This year, across both phases, the leavers include some that have contributed hugely and for many years to the success and development of our children. Lack of space does not do justice to the contribution these have made over the years but I would like to publicly acknowledge our thanks and best wishes for the future. These include Ms Taylor, leader of Nursery and Early Years, Mrs Collins, currently Year 4 teacher, Mrs Crimmins, Senco, Stella Parkhouse, Administrator and Jayne Hodgson, Charley Tribble, Kimberley Eves and Amy Foster, TAs, all from Mill Lane. At the Exeter Road site Mrs Williamson will be fully retiring after 38 years as a teacher and Head of Art, first at Teignmouth Grammar School, and then in its various incarnations over subsequent years. Other staff who are leaving this year are Mr Chappell, Teacher of Languages, Miss Edgcumbe, Teacher of Languages, Mrs Lea Ying Li, Teacher of Spanish, Mrs Roberts, Teacher of Art, Mr Monk, Teacher of ICT, Miss O'Connell, Teacher of Food Technology, Mr Knight, PE Cover Supervisor and Miss Hingston, Apprentice TA.

May I take this opportunity to wish everyone a happy Summer holiday and I look forward to meeting year 11, 10, and 13 on results days in August. I would also like to add an invitation to all parents to contact me directly about any issues concerning school. I am especially interested in knowing of those unsung heroes of our community who are often too modest to sing their own praises.

SPECTACULAR WILDLIFE AREA AT TCS MILL LANE

It really is a jungle! Outdoor learning is a key part of the Early Years curriculum and there cannot be a better place to learn about the environment for our youngest pupils.

KATE GREENWAY MEDAL FOR PICTURE BOOK ILLUSTRATION

Students in Year 1 and Year 2 were treated to an afternoon of reading sessions organised by English teacher Mrs Atkinson with eleven Year 8 students who volunteered to share their enthusiasm for the Kate Greenway shortlist. Mrs Atkinson said "It was a real delight to see the Mill Lane

library full of students completely engaged and enjoying reading for pleasure. The Exeter road students were fantastic ambassadors for the school ... particularly noteworthy were Zoe Speed, Scarlett Williams and Joshua Atkinson who generated great excitement about their books and read aloud with expression, confidence and control."

SPANISH EXCHANGE MARCH 2013

16 TCS students from Years 9 to 11 took part in the recent Spanish exchange. They stayed with their Spanish partner and got a real taste of the Spanish lifestyle. The packed programme included a trip to an adventure park where pupils were challenged to complete a circuit of rope bridges and zip wires and visits to the impressive Roman sites in the centre of Cartagena . Pupils also attended some lessons with their partners as well as special activities such as dancing and circus skills! Our students had a great experience in Spain and took full advantage of the opportunity. Here are some of their comments:

"The exchange renewed old friendships and created new ones for everyone. I had a great time and I can't wait to visit them again in summer"

"Doing the adventure activities was the best"

"The exchange was the best and I thoroughly enjoyed every single moment. I'm going to miss the Spanish people and weather so so much!!!"

"Just to experience a different side of the world for a week really opens your eyes to how diverse the world is"

"The thing I enjoyed the least was leaving. I would like to stay for longer"

YEAR 9 HOUSING PROJECT

All Year 9 students and the Maths department were joined for the day by 8 Yvonne Paddon from the Devon Education Business Partnership who organised representatives from a variety of backgrounds to join them, including the building trade, engineering, banking and a solicitor. The students spent the day working in teams to form a building company which was tendering to build a new housing estate. Their task was to plan and cost the estate, plan the marketing campaign for a newspaper advertisement and prepare a presentation of their company's proposals. Year 9 certainly rose to the occasion and impressed our guests by working hard in the classrooms and then producing some excellent work at the end of the day. The winning team were from 9AH and called themselves Fleetwood Housing.

HOW TO SURVIVE YOUR FIRST WEEK AT SCHOOL

BY Josh Cairns

I don't blame you if you're scared, a lot of upcoming year 7s are, even brave old me, who's not even scared of a spider! This article is going to help you with all that basic information you need if you're worried about surviving on the first week of school.

You may be worried about making friends. You just have to be yourself. It is vital you get along with the people in your form even if there a bite different to what you are used to! Try to get along because you're the one who has to be with them until the end of year 8.

You may find the size of the school a bite daunting at times with all its winding corridors and it may feel a bite like a concrete jungle and times. At least you know when you go around corners you won't be fasted with a wild, child eating Tiger but simply friendly faces wanting to help.

In your old school ,you maybe used to a different routine at lunch times to the one we have at TCS for example we have lunch at 12:50 and instead of giving the money TCS has made something called parent pay this works so your mum and dad put money on your account so you can buy food at school, you put your thumb on a little scanner and it takes money of your account but be carful your mum and dad can see all the food you are

having so my advice don't eat to many donuts!

I couldn't believe at first how much lessons you have in a day let alone a week instead of staying around in one class which your probably used to you have to leave your lesson and use the map you are given and find your way around the winding corridors and the concrete jungle.

There are a lot of things you have to take in at first but as you get threw the year you will start to get familiar all things you need to know. I hope you enjoy year 7 as much as I did.

I WAS A RAT - THEARTRE PRODUCTION REVIEW by Elsie Lidington

During April myself and other students from year 7 went to Exeter with Mr White and Mrs Burrows to watch a play.

I Was a Rat is a theatre adaptation of a book, originally by Phillip Pullman. It's the fantasy tale of a rat turned into a young boy, who stumbles about human life, trying to understand the complexity of our etiquette, traditions and beliefs.

The productio had a cast of eight, each doubling on roles. I particularly liked the way that an extravagant range of costumes was used to show the different characters and often portrayed the mood of the scene, individual or group.

Instead of using physical objects as props, they experimented with a mixture of mime, lighting and dance, allowing the audience to think about the details of what is there, or what isn't. However, some versatile props were added, though they weren't always used in the expected ways, such as a large chair, which was used as a seat, a platform and a jail. Overall, I really enjoyed this show as it brought out many different emotions: sorrow, joy, loss and guilt. I would recommend seeing a performance by this company to anyone.

SIXTH FORM ENRICHMENT 2012-2013

The Enrichment Programme has gone from strength to strength with over 70 students earning the Achievement Award for completing their Enrichment Programme modules, having excellent attendance throughout the year, receiving two formal recognitions of praise and providing paperwork showing they have reflected on their experiences. The programme comprises Life Skills, Fundraising, Volunteering and Employability phases.

This year the activities included self-defence, deaf signing, cooking, helping the older generation get online at the Alice Cross Centre, volunteering in local charity shops and schools, personal fitness at aLIVE, the new TCS gym, relaxation and yoga, employability, fundraising and a special project working with Michelle Greenwood-Brown to create a new mosaic for the Cave at Eastcliff which was partly funded by the Helen Foundation.

The new phase Employability was a great success; students updated their CV and application letter and had a mock interview with local business people. The students found this really valuable to help with future job and university interviews. The Enrichment Programme aims to help students gain confidence, new skills, improve communication and links with the community and intergenerational work. We are grateful to all the people involved in helping make this a great success including local charities, schools and organisations who have delivered sessions. Director of Sixth Form, Glenn Cosby enthused, "The Achievement Award proves what engaged, motivated and generous people our Sixth Form students are. I am really proud of the things they have achieved and of the contribution they have made to the school and the local community."

PLATINUM AND GOLD AWARD WINNERS 2012/2013

Aspinall Megan Year 7
Belfield Jamie Year 7
Chalk Emily Year 7
Chalkley Emily Year 7
Clark Aiden Year 7
Creasor Imogen Year 7

YEAR 6 BODY PARTS STUDY

As part of our Body study Year 6 have been learning about the heart and its function. To bring it to life Mandy King did a heart dissection for those who wanted to watch! As it turned out, even the squeamish ones couldn't help but stay (even if one student did hide himself in a book at one point!) We saw the arteries and chambers and even found out that a heart really does have heart strings!

ANOTHER SUCCESSFUL YEAR FOR TCS TEN TORS TEAMS

Despite some of the worst conditions encountered in recent years, Teignmouth Community School teams managed to have a very successful year completing the gruelling Ten Tors challenge. Students from Years 9 – 13 took part and were faced with poor visibility, heavy rain, wind and cold temperatures throughout. Although many others were forced to retire before completing their challenges, the teams completing the 35 and 45 mile distances both managed to finish their respective routes in fantastic times. Ian Grainger-Allen of the Ten Tors Committee was full of praise: "It's another fantastic achievement for the pupils and staff at TCS. Considering the conditions, the fact that we had two teams finishing is testament to their hard work, determination and fortitude. They are part of a long tradition of TCS success in the Ten Tors – we are all extremely proud of them."

35 Mile Finishers (L – R):
Jaimie Rosser, Alexander Jones
Keiron Naranjo Paz,
James McNally
Matthew Frey

45 Mile Finishers (L – R):
Louis Dutoitcock, Scott Heiron
Matthew Palmer, Sarah Doxsey
Haydn Evans.

YEAR 9 EXPERIENCE A TASTE OF SPAIN

After studying a unit in Spanish about meals and food and drink Year 9 Spanish classes planned and prepared a tapas tasting. They researched possible items and prepared a menu. Everyone in each class contributed something; we had some homemade garlic prawns, (gambas al ajillo), spicy potatoes (patatas bravas), tomato bread, (pan con tomate) and Spanish omelette (tortilla española) as well as chorizo, Spanish ham (jamón Serrano), mussels, crab, and various types of olives all washed down with home-made sangria (alcohol free of course)!

Pupils then completed a questionnaire giving opinions of what they had tried in Spanish.

After being strongly encouraged to try new and strange looking food many were pleasantly surprised!

MILL LANE LONDON TRIP

Year 6 at Mill Lane Primary School recently visited the Houses of Parliament and The Tower of London as part of their topic about London.

The visit to Parliament was only made financially possible as the school was able to access a travel subsidy scheme set up by the Parliament Education Service. The scheme meant that we only had to ask for a modest parental contribution towards the trip in these difficult financial times. Year 6 and all of the staff involved had a fantastic day and it was a brilliant opportunity for the children to see the sights of London and go inside The Houses of Parliament. A visit like this contextualises their learning about London and their learning to life.

The party had to start very early, at 5am to embark on their journey. They were driven by two brilliant bus drivers who shared their extensive knowledge and fantastic facts about London across the duration of the journey. From the coach it was possible to see many different sights including a selection of London bridges which had been studied as part of year 6's topic about London. It was also possible to see a number of different

famous buildings such as Buckingham Palace, Downing Street, The MI5 building and The Shard. As year 6 travelled around London they engaged in many thoughtful and insightful discussions about various economic theories such as; congestion, why there is so much congestion in London, the congestion charge, why property is so expensive in London and why the buildings are so much taller in London than those in Teignmouth.

The group spent the morning at the Houses of Parliament being given a guided tour. They were given the opportunity to ask questions to the Parliament Education Service team and an armed police guard on duty. All of the children were impressed with the surroundings and the atmosphere, "being in a place I see every day on the television is amazing" said Kane. "I can't wait to tell my family about this place" said Sacha. "I'm standing on the exact spot where Guy Fawkes was tried" commented JJ. Year 6 thought it was great to have the opportunity to see exactly how Parliament is run day to day.

Mr Templeman, the class teacher, said that, "the visit to the Houses of Parliament was a fantastic experience for all involved. This visit will give year 6 an interest in the work of Parliament for the rest of their lives. The trip was followed up once back at school where we combined many subjects in a fun and creative way allowing the children to make presentations about London and life in Parliament".

A BIG THANK YOU TO PARENTS OF CHILDREN WITH 100% ATTENDANCE

Teignmouth Community school, Mill Lane, has said a big thank you to all parents of children with 100% attendance by rewarding them with a free school uniform voucher. We appreciate that attendance is a family effort and that we as a school value the effort put in by children and parents.

SPORTS

SPORTS DAY AT EXETER ARENA

This year was the first year we have held the school Sports Day at Exeter Arena, with over 350 pupils participating in the athletic events. With perfect weather and an electric atmosphere in the grand stand the stage was set for a wonderful day of athletics. The events began with the hurdles and the students were extremely excited about this as it was the first time hurdles had been included in the Teignmouth Sports Day. With track and field events running throughout the day the spectators were able to watch some fantastic performances with 20 new school records being set.

New School Records

Alfie Blackwell – Year 7 – 75 Meter Hurdles – 16.08 seconds
Tiegan Hampton – Year 7 – 75 Meter Hurdles – 15.57 seconds
Charlie Bassant – Year 8 – 80 Meter Hurdles – 14.29 seconds
Scarlett Williams – Year 8 – 80 Meter Hurdles – 15.48 seconds
Jaimie Rosser - Year 9 – 80 Meter Hurdles – 16.22 seconds
Ryan Dixon – Year 9 – 100 Meter Hurdles – 19.10 seconds
Lewis Flanagan – Year 9 – 100 Meters – 11.48 seconds
Connor Moore – Year 8 – 200 Meters – 29.61 seconds
Brad Leaman – Year 10 – 200 Meters – 24.48 seconds
Kobe Dumbrell – Year 9 – 400 Meters – 62.86 seconds
Charlie Bilham – Year 8 – 800 Meters – 2.35 minutes
Peter Bilham – Year 10 – 1500 Meters – 5.02 minutes
Dan Woolnough – Year 9 – Long Jump – 5.38 meters
James Bryant – Year 7 – Triple Jump – 8.84 meters
Megan Overson – Year 8 – High Jump – 1.38 meters
Lewis Flanagan – Year 9 – High Jump – 1.55 meters
Amber Sullivan – Yr-Rounders Ball Throw – 37.21 meters
Sam Bourne – Year 8 – Javelin – 25.04 Meters
8WSM – 4x100 Meter Girls Relay – 61.16 seconds
9JIH– 4x100 Meter Girls Relay – 65.20 seconds

TRI GOLF TOURNAMENT

On Friday 7th June 10 children from years 3 and 4 took part in the Tri Dainton Golf Abbot. There were 8 different events and our team was competing with 14 other local primary

Golf Tournament at Course near Newton were 8 different teams from different schools. The team was really enthusiastic and represented the school well.

GIRLS' CRICKET

On 25th June we took our first ever Girls' Cricket Team to Bovey Tracey Cricket Club where they played against teams from different Primary Schools. Our team showed good batting and over arm bowling skills but we need to work on our fielding for next year. The girls had a good afternoon and were proud to achieve 6th place.

Team: Kerry Loughrey, Shannon Saunders, Sacha

Tribble, Nikki Smith, Megan Foster, Taylor Loughrey, Tayla Hodgson, Lucy Rosser and Emilie Gagg
